

Cyber Love

[Akeem](#)

Cyber Love

I wanna "scroll down" with you
Make a "shift", number two
Then, in third, we go through
A full scan, to avoid the flu

Hey Cyber love!
My secret stuff
I know you will never rust
Hey Cyber Love!
Invisible trust
We're a couple of unknowns

You're not a simple old machine
Com + alt + esc, my old routine
Whenever you ask if i'm eighteen
I promise darling, i will make up clean

Hey Cyber love!
My secret stuff
I know you will never rust
Hey Cyber Love!
Invisible trust
We're a couple of unknowns
