Shut Up

The Huntingtons

You're always so negative and quick to have a fit
You've got so much advice to give but I didn't ask for it
I wanna find out for myself, where I'll be at, today
I'm not some stupid waste of life, like you're so fast to sayShut upI'm sick of you're whole livelihood, you're livelyful abuse
Tell me, I'm not trying but you still say what's the use
I'm not like you and don't want to think I must measure up
And do those adult things you do or else I'm not good enough
