Love In Return

Sarina Paris

If you wanna get
If you wanna get
If you wanna get
If you wanna get to know me
Then you gotta show me
Can you be there for me
Are you strong enough?
Can you be my friend till the very end?
When I give you love
Will you give me love in return?
When you're close to me, I can't help it
I'm staring right through you
Wondering why you don't notice
I'd do anything my friends say
You know my name, it's just not the same
When you're close to me, I can't help it
I'm staring right through you
Wondering why you don't notice
I'd do anything my friends say
You know my name, it's just not the same
You keep playing the shy guy around me
Pretending you're too cool
Tell me you're free, there's no body
You want more than me
My friends say you know my name
It's just not the same
My friends say you know my name
It's just not the same
