

Trust Him

Nick Neel

If I could see it in the future
Back up few years ago
I wouldn't believe what was coming,
just on the road.
I'm farder, and not have a picture
I've done more than I've ever planned
It's easy to see, that one is supposed to be
inside someone's hands

Cause all I see, and it'll be front of me
Where can I know the ways
how to take that step?
Do I feel like I'm walking blind?
and I never the way I'll find
I know where I'm going
better than where I've been
So I'll trust him

There's always someone that I can turn to
And don't have to do it alone
where I am, that's speaking ponting me home
Do I know what's coming
I've always moved forward with faith
and one is in front of the other helping me to find the way

Cause all I see, and it'll be front of me
Where can I know the ways
how to take that step?
Do I feel like I'm walking blind?
and I never the way I'll find
I know where I'm going
better than where I've been
So I'll trust him

Trust him for all of my life
Cause here I'm darkness
and I need to follow the light

Cause all I see, and it'll be front of me
Where can I know the ways

how to take that step?
Do I feel like I'm walking blind?
and I never the way I'll find
I know where I'm going
better than where I've been
So I'll trust him
I'll trust him
I'll trust him
oh ohh ohh
