

I Hear

Lennon

[Verse 1]

Curtains swaying the windows closed
Ghost of the wind knocking at my door

Is that you checking on me

Bring the fire to set me free[Chorus]

Chill my body make it cold

Warm me up and let me go

I hear voices in the air

It's too strange no one's ever there[Verse 2]

Little drummer play my march

Bring your beat, drown out the dark

Ghosts waiting above my grave

The cold washing souls away[Chorus][Breakdown]

And I question the only questions I already knew the answers to

So I wish I could count quietly in a crowded room till we were only standing there

In another time, life, and place

And the only thing one could hear was the soft whisper pf

4, 3, 2[Chorus]
