

# Jah Is My Shield

Sizzla

This morning when I rise, I give most izes, praises, hail to the most high;  
Keep calling upon his all, and hail; Rastafari  
and when some people try to make the fool,  
of themselves and try to ridicule,  
their not much better -  
just the way they live,  
them there will never reach the positive,

Remember Jah is your shield and your guide,  
and the wickedness gotta turn aside  
No need to fend no wicked guide, the most high protect your life,  
Jah is your your shield and your guide,  
and the wicked men gotta turn aside,  
No need to fend no wicked guide, the most high protect your life,

They wish for your life to end, and they say that their your friend,  
they do you evil or they move so sweet, a bunch of hypocrits.  
All dem a chat, dem can't knock you down, no no  
No matter what just with Jah Jah be firm,  
Just be clever and you gotta be smart.  
Walk a straight road. Cause no love no inna dem heart.

Remember Jah is your shield and you guide,  
and the wickedness gotta turn aside,  
No need to fend no wicked guide, Selassie I protect your life,  
Jah is your your shield and your guide,  
and the wicked men gotta turn aside,  
No need to fend no wicked guide, Rastafari protect your life,

This morning when I rise, I give thank and praises, unto Jah,  
Keep calling upon, his love and ... let Jah prepare his path for I,

Jah is my shield and my guide,  
all the wickedness gotta turn aside,  
No need, no need! No need to fend no wicked guy,  
Selassie I protect your life,  
Jah is your your shield and your guide,  
and the wicked men gotta turn aside...
