Right Back

Che'Nelle

We were friends, we were cool
Used to talk on the phone to the early in the morning
You were there, you were down
Under all circumstances you were around
But than we kissed
Didn't think it was a major risk
And now it's changed all up into this
And I really miss what we had
And I wanna get us backYou never took it personal before I was your girl
Lets get right back where we belong
I used to tell you everything now I can't say anything
Lets get right back where we belong
And all of the nights you gave me advice
They've all been replaced by the usual fights
And now I don't know what to do to get us back
Right back where we belong
Lets get right back where we belong
Lets get right back where we belongSmothering me on the time
When I move to the left you're still hanging on my right
Checkin out frequently and
I'll never be ok if you keep pushing me
And you never had it in you to but how you acted
Now it's like i'm not so sure
And I really miss what we had
So can we go back to whenYou never took it personal before I was your girl
Lets get right back where we belong
I used to tell you everything now I can't say anything
Lets get right back where we belong
And all of the nights you gave me advice
They've all been replaced by the usual fights
And now I don't know what to do to get us back
Right back to where we belong
Lets get right back where we belong
Lets get right back where we belongYou were my rock you were my mate
Right up in my face when I was losing faith
You wouldn't get mad when I would say no
You let me be free but now you wanna control
Baybe it's sad I believe
I was for you and you was for me

I'm at the point the point of no returning
I am overthinking something you love
Lets get right back where we belong
Cuz...You never took it personal before I was your girl
Lets get right back where we belong
I used to tell you everything now I can't say anything
Lets get right back where we belong
And all of the nights you gave me advice
They've all been replaced by the usual fights
And now I don't know what to do to get us back
Right back to where we belong
Lets get right back where we belong
Can we go back
Lets get right back where we belong
Can we go back
Lets get right back where we belong
Can we go back
Lets get right back where we belong
You never took it personal
Untill I was your girl
I used to tell you everything
And now I cannot say anyhting...
