## A Party Song (The Walk of Shame)

## **All Time Low**

I took a walk for the very first time On the dark side of the dance floor Lit a match just to heat things up

But I got more than I bargained forMixed drinks, mixed feelings of elation I should have known it was a one night invitationDon't sweat it, forget it, everything is a okay

Just let it go then it's off to find another face

I'll make you come just to watch you leave

You walk around with my heart on your sleeve

Don't sweat it, it's over now, our time ran outI took an oath but I'm giving it up

You didn't have to see things my way

Nothing more than a casual fuck

Isn't that just how we operate? Let's drink to feelings of temptation

You and I, we're an overnight sensationDon't sweat it, forget it, everything is a okay

Just let it go then it's off to find another face

I'll make you come just to watch you leave

I walk around with your heart on my sleeve

Don't sweat it, it's over now, our time ran outOutside, the brake, light's started to dim

I feel the tension that's been pulling us in

And then we do it again so we can feel all right

Falling in love for the nightDon't sweat it, forget it, everything is a okay

Just let it go then it's off to find another face

I'll make you come just to watch you leave

You walk around with my heart on your sleeve

Don't sweat it, it's over nowOur time ran out, our time ran out

Our time ran out, our time ran out

Our time ran out
