Go Into the Water

Dethklok

We call out to the beasts of the sea to come forth and join us, this night is yours Because, one day we will all be with you in the black and deep One day we will all go into the waterGo into the water live there die there live there dieWe reject our earthly fires Gone are days of land empires Lungs transform to take in water Cloaked in scales we swim and swim on We are alive, and we'll metamorphasize

And we'll sink as we devolve back to beasts

Our home is down here, and we've known this for years

We must conquer from the sea, we build an army with water steedsWe'll rise, from our depths down below

Release yourselves, drown with me

We will conquer land with waterGone are days of land empires Lungs transform to take in water

Cloaked in scales we swim and swim on

We swim on We swim on
