La la(echoed)

The tension is painted all over ya face  
ya friends say be watchin too many movies  
and your daddy take vacations out at the lake  
so you sit on the roof and smoke plenty of dubbies  
call her five minutes after midnite  
tell her you been tuggin on my insides  
make a nigga wanna live right what should i do  
in your momma livin room with dim lights

so you got time an i got time shit im good  
when im venon babe venon babe summer night take a flight for the venom babe  
bend the corner when she call me over for the venom babe  
im pullin up rollin up venom babe
