

Keep Running

Gemma Hayes

Three years in miles of sea
somehow i carry you with me
Your in every face I see
But the city brings sweet relief
Until you find me

[Chorus]

I might as well be lost in Hollywood or London town
Than be lost in you....You..
I might as well be lost in Noslow or Tokyo soul
Than be lost in your world....

Something you said created a storm that triggered a landslide
And took you form me...
Fall starts and endless dreams
You say your doing okay but your face gives it all away
Until you find me

[Chorus]

Where did you go?(2x)
I turned around and everything changed(7x)

[Chorus]

Keep running just keep running into my arms...
Oh Oh oh...(6x)
