# Part of My Life

## Edwin Bruce

Can you be a part of my life?
Can you be a part of my life?

Oh it's easy to find some one to play with
And almost anyone will do to fill your idle time
But that very special someone,
you can share all your dreams with is so hard to find

And it use to be like me to settle for the physical
But these days it ain't too easy to make up my mind
Cause apparently you body just to temporally to take up my precious time

See I've got to know that
That I can be free with you and
you've got to show that
That you're worthy of my time
Can you stimulate my mind?

And I know that it looks good,
But can you be a part of my life
And I'm sure that it feels good
But can you be a part of my life
And it probably even taste good
But can you be a part of my life
I've got to know

I still appreciate the beauty of a man
But there's more to what I need now than what meets the eye
And if beauty's only skin deep,
Then your pretty skin won't send me to my highest high
Oh it's been along time come for maturity
And I believe that it's truly what it has to be
Cause as much as I admire you
My sexual desire, ain't controlling me

See I've got to know that
That I can be free with you and
you've got to show that
That you're worthy of my time

Can you stimulate my mind?

And I know that it looks good,
But can you be a part of my life
And I'm sure that it feels good
But can you be a part of my life
And it probably even taste good
But can you be a part of my life
I've got to know

And I know that it looks good,
But can you be a part of my life
And I'm sure that it feels good
But can you be a part of my life
And it probably even taste good
But can you be a part of my life
I've got to know

Can you be a part of my life?
I got to know that
Can you be a part of my life?
I got to know that
Can you be a part of my life?
I got to know that
Can you be a part of my life?
I got to know that
Can you be a part of my life?
I got to know that
Can you be a part of my life?
I got to know that??.
