Get Close

Call the Cops

Hey ladies, yeahHe runs screaming, he's been dreaming but he thinks he's awake
He started trying since the lyings about all he can take
He grabs her hand, the girl's hand that we just met at the bar
He whispers gently in her ear as they drive off in a carHe signs let's go home
I wanna get a little closerShe said we'd shine together
We're fine together, no end forever
She said let's spend some time together
We're fine together, no end forever insteadHe sings a song for her, a song for her he hopes she will know
She drops her jaw and said she's heard him on the radio
He starts to laugh the little laughs, he stares on up in the stars
Those thoughts are racing through his brain as if they were speeding carsLet's go home
I wanna get a little bit closerShe said we'd shine together
We're fine together, no end forever
She said let's spend some time together
We're fine together, no end forever insteadShe said we'd shine together
We're fine together, no end forever
She said let's spend some time together
We're fine together, no end forever insteadAct like every things fine, she brushes off her shoulder
What he did wasn't right, she won't do what he told her
Act like every thing's fine, she brushes off her shoulder
What he did wasn't right, she won't do what he told herAct like every thing's fine, she brushes off her shoulder
What he did wasn't right, she won't do what he told her
Act like every thing's fine, she brushes off her shoulder
What he did wasn't right, she won't do what he told herShe said we'd shine together
We're fine together, no end forever
She said let's spend some time together
We're fine together, no end forever insteadShe said we'd shine together
We're fine together, no end forever
She said let's spend some time together
We're fine together, no end forever instead
