They Only Come Out At Night

Lordi

You know you saw them but no-one ever listens

They'll be long gone by the time the sun has risenYou feel 'em lurking, hear 'em howling in the shadows Wreaking haboc on your perfect worldThey are the tricking trolls

They got the bell that tolls

Flash at the edge of your sightThey only come out at night

They only come out at night

They only come out at night

They only come out at nightThe shadows breathe with a venom like no other

A silent evil where there shouln't be another, no noI feel 'em lurking, hear 'em howling in the shadows

Wreaking haboc on your perfect worldThey are the tricking trolls

They got the bell that tolls

Flash at the edge of your sightThey only come out at night

They only come out at night

They only come out at night

They only come out at night[Solo]Don't know what's at stake

I think they're right beside me

I gotta stay awake

And keep them all from biting They only come out at night

They only come out at night

They only come out at night

They only come out at nightThey only come out at night

They only come out at night

They only come out at night

They only come out at night They only come out at night

They only come out at night

They only come out at night They only come out at night

They only come out at night

They only come out at night
