Blood and Sand

Pigface

blood and sand [x4]
what world filled with black
and which point of collapse
becall you crystal gazers
becall you philostines
water melting
decayed and angry
collapse [collapse]...collapse [collapse]...
collapse [collapse]...collapse [collapse]...
what i can't runs[pulls] my fingers
from the burning metal sign
is this the only way to say a prayer?
are your's the only eyes that stare?
what world filled with black instead of
sedatives...sedatives...sedatives...sedatives...
my nails will break my spine [my nails will break my spine]...
my nails will break my spine [my nails will break my spine]...
my nails will break my spine [my nails will break my spine]...
my nails will break my spine [my nails will break my spine]...
blood and sand [x8]
