In Conspiracy With Satan

Bathory

The lies of Christ will lose the ways of hell I chose I drink the floating blood defy the fury of GodI have turned my back on Christ to hell I have sacrificed I have made love to the Pagan Queen the gates of hell I have seenI heard the angels cry I watched the witches fly I saw the clouds of death Slowly blackening the skyI read the book of spell I chimed death's ancient bell and when I die I have a place reserved in hellIn conspiracy with SatanI ride the bloodstained goat I let the brewage float I have seen the reaper's face and walked through eternal hazekissed my master's hand I have seen the children of the damned I heard the demons call and seen a thousand virgins fall
