

# Lead The Way

## Mariah Carey

Who would've believed  
That you and me would fall  
    And land together  
And who could've foreseen  
    In you I'd find the place  
    I've belonged forever  
    And if I move closer  
Then love will take over  
    And lead the way  
    I'd given up hope  
    Losing the faith that love  
    Could be mine to treasure  
And now nothing's the same  
    I found myself reborn  
    On the day I met you  
    And if we move closer  
Then love will take over  
    And lead the way  
    Suddenly you are lying  
    Here with me  
And the truths I used to hold  
    Have changed  
    And if I move closer  
    And let it take over  
Then love will lead the way  
    If we move closer  
    And let it take over  
Then love will lead the way
