

Lie To Me

Anggun

Underneath the sky
All I see is blue
The clouds inside my eyes
Only caused by you
For what we used to be
The bound we just undo
Before I set you free
I just need you too
Lie to me
I shall believe
Lie to me
I need to hear
That you were wrong
That you regret
I shall believe
Lie to me

That I swept off your feet
And love will start anew
Words I want to keep
Though I know it;s not true
Just say I was the one
There's nothing like we're two
But strangers we'll become
Before we are thought
Lie to me
And I shall believe
Lie to me
There're words I've longed
To hear
Lie to me
And I'll agree
Lie to me
Swear I believe
