

# Death Of A Playa (feat. Rashad Haughton)

## Aaliyah

CHORUS:

You used to love them, leave them, kiss them  
Break their hearts, but now I got you in my arms

You used to get them, trick them, diss them  
Do them wrong, but now your playa days are gone

VERSE1:  
Everybody knew about you baby and the games you played  
Couldn't count the names, faces and numbers

Nor the times you laid down

But somebody knew about you baby and that you'd change  
It was me 'cause I could see my love would turn you around

CHORUS:  
You used to love them, leave them, kiss them  
Break their hearts, but now I got you in my arms

You used to get them, trick them, diss them  
Do them wrong, but now your playa days are gone

VERSE2:  
I always say never say never boy, but you did  
That's when I took your mind and flipped the script

Your boys talkin' 'bout you're falling off  
And that you're whipped

But who are they to say when it's all my love I give to you

CHORUS:  
You used to love them, leave them, kiss them  
Break their hearts, but now I got you in my arms

You used to get them, trick them, diss them  
Do them wrong, but now your playa days are gone

RASHAD'S RAP:CHORUS: (until fade out)
