

Made in California

Jah Cure

Short, short, time give in??? yeah, yeah, yeah
I strayed off, she's next stop might be Closing down whatever I knew
Came in talking next to you
You know what you gonna do
I want it, you got it
Let's get it, okay now, eh
You know I can't get enough
I know that tonight you know
That natural California love
You got it, I want it
Let's get it, okay now, eh You got me flying way up in the sky
Must be MADE IN CALIFORNIA
Girl you so hot, when you start to get high
Must be MADE IN CALIFORNIA Girl you so strong, you got it going on
I'm so glad to know you
I work it like, you can see it in my eyes
You were MADE IN CALIFORNIA
Oh girl, I can smell you in the air
Now we're making clouds in here
We ain't going anywhere
I feel it, I need it
Let's get it, okay now
I know you can't get enough, oh oh oh
I know I can light it up
I know you like that island love
You see it, you need it
Let's get it, okay now
You got me flying way up in the sky
Must be MADE IN CALIFORNIA
Girl you so hot, when you start to get high
Must be MADE IN CALIFORNIA
