

# Pale Blue Dot

## TWRP

Ooh, yeah  
Mother daughter father son  
All actin like the only one  
All children of the blue dot  
Donâ€™t take for granted what you got  
Alone in this wide galaxy  
At least as far as you can see  
How careless the human race  
Spiraling faster and faster increasing in pace  
Itâ€™s time we thought about the future of planet earth  
Of life on earth  
Of planet earth

The future of planet on earth (The pale blue dot)  
The future of life on earth (the pale blue dot)  
Iâ€™m talking about the future, yeah

Brother sister all as one  
We dance until the morning come  
Out on the dance floor we have found  
A reason to lay our weapons down  
If weâ€™re to reach the stars above  
Right here, right now  
You must spread love  
Love  
Love  
Love

The stars above, above, ooh yeah

The future of planet earth (The pale blue dot)  
The future of life on earth (The pale blue dot)  
Cause itâ€™s the only one weâ€™ve got

(Carl Sagan)

From this distant vantage point  
The earth might not seem of any particular interest  
But for us, itâ€™s different  
Consider again that dot  
Thatâ€™s here, thatâ€™s home, thatâ€™s us

On it, every one you love, every one you know, every one you ever heard of

The only home weâ€™ve ever known.
