

# Good Souls (Live From Fairtrade)

## Starsailor

Feel  
Sick after every meal  
I'd say  
'Cos I know  
The life from your burning wheel  
Won't wane  
Sleep  
I sleep every day  
Wipe the cobwebs away  
I need to be loved  
Christ  
I'm out of my mind  
I need to be loved  
I need to be loved  
As I turn to you and I say  
Thank goodness for the good souls  
That make life better  
As I turn to you and I say  
If it wasn't for the good souls  
Life would not matter  
Dive straight in on your girlfriend  
Making her feel like there's going to be a war  
Dive straight in at the deep end  
Making you feel like there's going to be a war  
As I turn to you and I say  
Thank goodness for the good souls  
That make life better  
As I turn to you and I say  
If it wasn't for the good souls  
Life would not matter  
One good day of the week  
And I'll be up again  
One good day of the week  
I'll be higher than the government  
As I turn to you and I say  
Thank goodness for the good souls  
That make life better  
As I turn to you and I say  
If you're messing with a good heart

You've got to take what's due
