The Love You Left Behind

Heather Myles

Left a little somethin' here at home.
It'll be here when you get back from the road.
Didn't write no letter, didn't tell you on the 'phone.
I think it's something you really want to know.You left a little love growin' inside of me.
Can you feel it? Can you see?
There's a glow in my eye.
It's nice to know I've got this little love you left behind.Feel you with me every day,
Could be a thousand miles away.
Highway's always haunted me.
Now I've got somethin' to ease my misery.You left a little love growin' inside of me.
Can you feel it? Can you see?
There's a glow in my eye.
It's nice to know I've got this little love you left behind.Instrumental break.No matter where our roads might lead,
You'll always be a part of me.You left a little love growin' inside of me.
Can you feel it? Can you see?
There's a glow in my eye.
It's nice to know I've got this,
Little love you left behind.
