

# **Lights Go Down**

## **Basement Jaxx**

And when the lights go down  
That's when it bites just a little  
Bites just a little more  
And when the lights go down, down  
That's when I die just a little  
Wanna get high just a little moreWhen the curtain falls  
And there's no more applause  
When the party's over  
And there's no one to hold you  
Look inside yourself and find  
Your own light to ease your mindAnd when the lights go down  
That's when it bites just a little  
Bites just a little more  
And when the lights go down, down  
That's when I die just a little  
Wanna get high just a little moreWhen the curtain falls  
And there's no more applause  
When the party's over  
And there's no one to hold you  
Look inside yourself and find  
Your own light to ease your mindAnd when the lights go down  
That's when it bites just a little  
Bites just a little more  
And when the lights go down, down  
That's when I die just a little  
Wanna get high just a little more
