I'm in Love (Cyberx Love's Remix)

Compact Disco

She's the girl that I've been waiting for some days,
I'm the one for who the world has turned to gray,
But she didn't give me time enough to pray,
I've a love, I hope, will see the light of day,
I'm in love...Chorus:
I'm in love...
I'm in love...
I'm in love...
I'm in love...She's the girl that I've been trying hard to reach,
I'm the only one who really wants to stay,
But she didn't give me time to even breath,
I've a love, I hope, will see the light of day,
I'm in love...
