

# Yeast Infection

Larry Pierce

Well I was making love the other day  
And I put my hand between her lovely legs  
She was giving me a hickey  
When I felt something sticky  
And I didn't know exactly what to say

Then slowly I removed her underwear  
Then she reached down and scratched her pubic hair  
Well I knew I was'nt dreamin'  
When I saw that yellow semen  
And the smell of catfish really filled the air

## CHORUS 1

I wanna show her my affection  
But she's got a yeast infection  
And her underwear is sticking to the wall

She pulled my head down closer to her crotch  
She told me it would taste like butterscotch  
Well I never had the heart  
To pull grilled cheese apart  
I'll turn my head so I won't have to watch

Well I closed my eyes and stuck my tongue right in  
Yeah the puss and blood was a drippin' from my chin  
She was kicking and a screamin'  
And pissin' on the ceilin'  
I just held my breath and stuck my pecker in

## CHORUS 1

I wanna show her my affection  
But she's got a yeast infection  
And her underwear is sticking to the wall

Well I fucked her long and hard right then and there  
And I rubbed that bloody semen through her hair  
I watched my pecker thumpin'  
And when she started cummin'

It looked like makin' taffy at the fair

## CHORUS 2

Well I showed her my affection  
Though she's got a yeast infection  
Now my underwear is sticking to my balls

Yes I showed her my affection  
Though she's got a yeast infection  
Now my underwear is sticking to my balls
