Nobody

Mecanico

You're beginning,
You're beginning to believe
There is no magic
There is no god upstairs
You're beginning
You're beginning to believe
There is nobody
There is no place like home
Use your notion
Take your chance and make the most of all
The world's in motion
Make your mind there's nowhere else to go
You're not the only one who waits for more
So you're letting them know
Time has come there's only here and now
You're not just passing by, oh no
Break the mold you came in
Use your eyes instead
We'll be safe the minute
We don't look ahead
I know what you're thinking
Cause we think the same
Let's reclaim the rythm
We were born for
