

# Like a Pen

## The Knife

Sharpen my body like a pen  
Come on I need to show it  
Something too small for a lens  
If I rub it if I wipe it Guiding with one single hand  
Nothing's wrong you like the feeling  
I am all over the land  
Come on I need to show it Back on the mountain again  
I was standing watching seasons  
You're now my only friend  
I'm too heavy, I'm the burden Sitting and picking on myself  
It's a shiny, shiny morning  
And when the light finds my eye  
I'll be fleeting like a scent
