That's the Way It Goes

Simon Webbe

(Na na na na na na...)Some days I don't know how I got here
It's been a journey through the dark
I've lived a life that had no answers
The truth was always in my heart
I spin a coin to make decisions
And still I always got it wrong
Try to avoid head-on collision
The chance was there but now it's goneSo I say uh uh uh uh uh
That's the way it goes
I've lived to find another day
And I...uh uh uh uh uh
That's the way it goes
Life is a game we have to play
Play on...It's like a book that has no ending
It's like a story never told
It's like a night when you're on fire
Why does the morning feel so cold?
Feels like I'm trapped inside a circle
And though I plan my great escape
It's like I'm back at where I started
The only thing I have is faith[Chorus]Play on...Oh, you know we have to play
Na na na na na naIt feels like I'm trapped inside a circle
Although I plan my great escape
Looks like I'm right back where I started
The only thing I have is faith
That's the way it goes...
