Ring My Bell

Billie Piper

Ring my bell
Ring my bell
Wonder could it be
Could it be for me
That's the sound I've been waiting for
Any time of day
He can come my way
When I open the door
I know that all is well
Every time I hear that bell
I can tell
Someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell who is at my door
Ring my bell
Ring my bell
Everywhere I go
Always need to know
Is he waiting outside for me
So I hurry home
Really hurry home
When I open the door
I know that all is well
Every time I hear that bell
I can tell someone's at the door
I know who it is
Someone's back for more
I know who
By the way he rings my bell
I can always tell who is at my door
Ring my bell
Ring my bell
Waiting by the door
Wonder where he's been can stand it no more
Gonna let him in
If he comes inside

We'll do everything
I got on my mind
Repeat chorus to fade
