Straight Up The Middle

Ryan Malcolm

I've been knocked down
I'm getting myself together
Face to the ground
I know it's now or never
This will be the last timeI comin' at ya straight up the middle
Nothing can pull me down
I'm gonna drive it straight up the middle
Nothing can stop me now
I'm gonna drive it straight up the middle
No one will ever bring me downI fall back down
Can't pull myself together
When I come around
You're in for nasty weather
This will be the last timeI comin' at ya straight up the middle
Nothing can pull me down
I'm gonna drive it straight up the middle
Nothing can stop me now
I'm gonna drive it straight up the middle
No one will ever bring me downPush me around
You should know better
Face to the ground
It's now or neverI comin' at ya straight up the middle
Nothing can pull me down
I'm gonna drive it straight up the middle
Nothing can stop me nowI comin' at ya straight up the middle
Nothing can pull me down
I'm gonna drive it straight up the middle
Nothing can stop me nowI comin' at ya straight up the middle
Nothing can pull me down
I'm gonna drive it straight up the middle
Nothing can stop me now
I'm gonna drive it straight up the middle
No one will ever bring me down
