

Wait

Group 1 Crew

Here we go, ah yeah
I got the feeling that somebody
Needs to hear this song, that's right
So turn it up, turn it up
Just turn it up, up, turn it up I remember them days
When my momma would tell me
Said, "You're too busy runnin' 'round
Need to calm down, always lookin' for love"
Go slow She told me, "Love ain't easy, baby, believe me
It can break your heart make you fall apart
So you gotta be careful
There's no need to rush it" But now I'm getting older
And each winter's getting colder now
Hope to find you somehow For now I'll patiently wait
For you to come my way
And I won't hesitate
When you make a way
Right to my heart
So now I'll patiently wait Hey, might just have to wait
You know her, hey There's been so many mistakes that I know
That I made in the past
Love so deep that I thought it would last
But you went away and you ain't lookin' back
So I'm left with the pain and a heart made of glass Why that I could ask all day
Lie to myself that I'm so okay
Try to get past my regret and change
'Cause my heart still beats to the pace of a faith That believes that the best of my life is still
On the horizon so blindingly real
If I hold close to his beautiful will
Then I'll find what I'm looking for, chill With the girl that was made for me
So dang fly gotta hide her wings
I'll just wait till the day we meet
But for now I'll sing That I'll patiently wait
For you to come my way
And I won't hesitate
When you make a way
Right to my heart For now I'll patiently wait
For that one sweet day
When you'll take me away with you

And our fairy tale will start
So now I patiently wait 1, 2, 3, 4
The Clock ticks and I'm still
Waiting for ya, waiting for ya
4, 3, 2, 1
I'm countin' down the days
Until I know ya, until I know ya 1, 2, 3, 4
The Clock ticks and I'm still
Waiting for ya, waiting for ya
4, 3, 2, 1
I'm countin' down the days
Until I know ya, till I know ya Let me hear the song bird sing
I wonder what song it'll sing
Would it be a Frank Sinatra hit
Or maybe be a tune by Nat King Cole My story is tad difficult
I'd be the one who would bolt
After running game like the colts
Someone hurt the most But it's been a long time coming
Switched the play list my soundtrack is hummin'
A new theme song, featuring yours truly
This is what we call a sing along So I'll patiently wait
For you to come my way
And I won't hesitate
When you make a way
Right to my heart, oh And now I'll patiently wait
For that one sweet day
When you'll take me away with you
And our fairy tale will start
Till then I patiently wait I got the feeling that somebody
Needs to hear this song, that's right
So turn it up, just turn it up
Just turn it up, up turn it up, up I got the feeling that somebody
Needs to hear this song
So turn it up, just turn it up
Just turn it up, up turn it up, up, up
