

# Clap Your Hands

## Audio Adrenaline

Everybody, everybody, everybody

Come on, clap your hands

Everybody, everybody, everybody

Come on, clap your hands

This is the melody, this is the melody

This is the remedy, this is the remedy

Everybody, everybody, everybody

Come on, clap your hands

Everybody, everybody, everybody

Come on, clap your hands

This is the melody, this is the melody

This is the remedy, this is the remedy

Everybody, everybody, everybody

(Come on, come on)

Come on, clap your hands

Everybody, everybody, everybody

(Come on, come on)

Come on, clap your hands

Clap your hands, clap your hands

Clap your hands

I can't stop till my body drops and you know

I'm not gonna be the one to sit it out

I clap my hands to the promise land

?Cause the promise can, yeah

The promise can, yeah the promise can

Keep me till my heart caves in

Everybody, everybody, everybody

(Come on, come on)

Come on, clap your hands

Everybody, everybody, everybody

(Come on, come on)

Come on, clap your hands

Clap your hands, clap your hands

Clap your hands, clap your hands
