Marilyn Manson

when you wish upon a star don't let yourself fall, fall in too hard I fell into you and I'm on my back an insect decaying in your little trap I squirm into you, now I'm in your gut I fell into you, now I'm in a rut "i lift you up like the sweetest angel, i'll tear you down like a whore. i will bury your god in my warm spit, you'll be deformed in your porn" rock star, yeah (you're such a dirty, dirty) rock star, yeah (dirty, dirty, dirty) you eat up my heart and all the little parts your star is so sharp it leaves me jagged holes I make myself sick just to poison you if I can't have you then no one will (chorus)

you are the one i want and what i want is so unreal i'm such a dirty Rock star yeah...
(i am the one you want and the one you want is so unreal)
