

There's a God Somewhere

[Aaron Neville](#)

Each day the sun come out to shine
Yes, the stars and the moon
They just live on, live on all the time
The wind it blows
As we listen and breathe, we breathe
God's living air
You know the flowers grow, yeah
And they do not toil, oh Lord
They do not spend
Spend or work at all
You know the birds, they live
Live and get their care
Surely there is
There is a God somewhere
