

# Oh My Lady

## Jang Geun Suk

First they told me that they loved me  
Dressed me up in the light of gold  
All they wanted was to know me  
Gotta get me on before I get too old  
Then they told me I was big time  
Lots of favors of limousine  
This might be what they told me it would be  
But I'm not sure it's what I need  
Not what I need  
Now, won't you tell me  
Oh my lady, where's my lady?  
All this glory, where's my lady  
To share it with me?  
Oh, to share it with me  
First they told me I could love you

And then they told me never mind, never mind  
Gotta keep those cards and letters flowing in, my friend  
Gotta try and have a real good  
Real good time, now wouldn't you tell me  
Oh my lady, where's my lady?  
All this glory, where's my lady  
To share it with me?  
Oh, to share it with me  
Now, won't you tell me  
Oh, where's my lady?  
All this glory, where's my lady?  
To share it with me  
To share, to share it with me  
Oh my lady
