

# None of the Above

## Voivod

we'll be back, right after this! following the story  
on my monitor  
only flat colors  
no more saving glory  
black and white distortion  
back and forth all day  
a fine-tuned deception  
I am shocked in waves it just brings me down  
who is right? what is wrong?  
where's the second chance?  
looks just like the same song  
and the same old dance  
storm the desert home-land  
this one's gone too far  
we hold peace in one hand so, every channel's the same  
in the other...war!  
it just brings me down what future? for who's gain?  
and the answer is?  
B. blown-up in flames  
same weird game show quiz  
A. global destruction C. polluted oceans  
none of the above D. seas of disease
