I'm Amazed

Pixies

All I know is that
There were rumours he was into field hockey players
There were rumours
- So he applied basically
- He was gone the next day
- And went off with the team
- It's like - he was got - they'd just like
It was like so hush hush
They were so quiet about it
And then the next thing you know
The day before that I was wed
She went upstairs and she cut her hair away
I'm amazed
And when I was a little boy
A ball of string my parents took from me
I'm amazed
Before I died, I took my Honda
And packed it up, up, up to Arizona (honey)
I'm amazed
