

# Underneath the Sky (feat. Christon Rigby)

## Dash Berlin

Now the smoke is gone  
And the storm has pass  
And you finally caught your breathNo, it's over now  
And you're safe with me  
I will guide you through the nightWhen it all went down  
Like the tidal wave  
and it swept you off your feetThere's a time to heal  
Whisper so unreal  
So believe me when I sayClose your eyes  
Stop dreaming of foregone days  
We can never turn back time  
Regretting the words we did sayTake my hand  
Don't let it just pass us by  
Now in our promise land  
Here tonight  
Underneath the skyUnderneath the sky  
Underneath the sky  
Underneath the sky  
Underneath the sky  
Underneath the skyNow the smoke is gone  
And the storm has pass  
And you finally caught your breathNo, it's over now  
And you're safe with me  
I will guide you through the nightWhen it all went down  
Like the tidal wave  
and it swept you off your feetThere's a time to heal  
Whisper so unreal  
So believe me when I sayClose your eyes  
Stop dreaming of foregone days  
We can never turn back time  
Regretting the words we did sayTake my hand  
Don't let it just pass us by  
Now in our promise land  
Here tonight  
Underneath the skyUnderneath the sky  
Underneath the sky
