Hope Is...

Killswitch Engage

C'mon
This is our moment
Will you stand with me?
Hope is not lost, love is not lost
Let the strength of your words
Be the spark that ignites the flame
Proclaim your freedom
Give voice to your liberation
This is my confession
Mark these words, we will rise
Weep no more
(Weep no more)
We will prevail
(We will prevail)
Grieve no more
(Grieve no more)
We will prevail
(We will prevail)
Revoke the needless way of affliction
Revoke and abandon
We are the offer, sinisters
Of our faith, we have a solution
This is my confession

Mark these words, we will rise, yeah
Weep no more
(Weep no more)
We will prevail
(We will prevail)
Grieve no more
(Grieve no more)
We will prevail
(We will prevail)
Hope is, hope is not lost
Hope is, hope is not lost
Weep no more
(Weep no more)
We will prevail
(We will prevail)

Grieve no more
(Grieve no more)
We will prevail
(We will prevail)
This is our moment
Will you stand with me?
(Stand with me)
Hope is not lost, hope is not lost
