You Have to Be out of Your Mind

Norma Jean

They say love is the thing makes the world go around
And these words by the experts sell fine
They say true love is all give and take but I found their opinion is different from mine
There's just two things that takes to be in love
And they go right together hand in hand
First to have to give in all the time and you have to be out of your mind
[el.banjo - steel]
When you come to the stage where you always agree
Say he's right when you know that he's wrong
Oh he'll think you're the most but you'll be just like me
Beyond hope beyond help too far gone
There's just two things...
And you have to be out of your mind
