Nobody Knows

Joey Devries

Verse 1
Thinking 'bout all the things that you used to say
When you said I was wrong I knew it was okay
Feeling down like I just couldn't get up didn't feel like I was good enough
I can't hide behind the lies trying to hide the pain you could see it in my eyes, no I'm not the same I can't fight forever don't even know what I'm fighting for anymore, I know for sure

Hook 1
If you could see the world through my eyes then maybe you'd realize what I feel inside

Chorus 1
I'm not gonna live forever I make up my own mind, gotta hold it all together one chance to make it right
It's time to open up my eyes, leave my ghosts behind
Step out of the darkness and into the light

Nobody knows me better than, nobody knows me better than, nobody knows me better than, knows better than I know myself (x 2)

Verse 2
All those times that you spent standing in the dark
Did you think in time it would fix your heart
Hide behind the smile, only see what's on the outside We're always trying to hide it, hide it away

Hook 2
If you could see the world through my eyes then
maybe you'll realize what I feel inside

Chorus
Not gonna live forever I make up my own mind gotta hold it all together, one chance to make it right
It's time to open up my eyes, leave my ghosts behind
Step out of the darkness and into the light

Nobody knows me better than, nobody knows me better than, nobody knows me better than, knows better than I know myself (x 2)
