

# Let Me Serenade You

## Three Dog Night

I will serenade you, all along the way  
I will serenade you, anyway you say  
I'll take you to the country, take you to the shore  
Show you to my garden, I know you'll make it grow  
If you let me serenade you  
You know that's what you come for  
So that I will serenade you  
I wake you in the morning, on your sunrise high  
You're fire in the evening when it blows outside  
If you let me serenade you, you know that's what you come for  
So that I will serenade you  
And when the walls begin to fall  
Can't hold back the joy  
That love will conquer all  
Every moment, every day  
If you want to hold me  
I will, I will, I will, I will stay  
Let me serenade you, I will serenade  
If you want to hold me, yeah  
One more, one more now  
Every body keep a singing, I sing it  
I really love you baby  
I will serenade you  
All along the, whoa  
Let me sing it, whoa  
I will sing a  
I will serenade you, baby  
I will serenade you  
No, no, no, no, no, no
