

# I May Never

## Uncle Earl

I May Never

KC Groves, Carol Groves, Uncle Earl I may never see them again

I may never see them again

I love to see the fall come around

All the colors there on the ground

I may never see them again I may never hear them again

I may never hear them again

Put on my old grey winter coat

Sing the sad summer songs I wrote

I may never hear them again I may never feel them again

I may never feel them again

Tuck me into a warm feather bed

Think of things I shoulda said

I may never feel them again
