

# Guardians

## Alchemorph Soundtracks

We're living in our units and one thing we can do is  
Work for a life without a fate  
We don't pay any taxes but the state is the axes  
Of our minds without love without hate We have a higher order, no one needs to be a hoarder  
Our society is such a glorious thing  
In our centers we can dream of, anything you never think of  
You can't say we are puppets on a string Our minds are kept so clean  
Checked up on a screen  
They're holy men, they're saints  
Without them we might all fail We don't know war and crime, things of ancient times  
Just see it if we put on video  
The blue pass is for my life and the red one's for my wife  
It's the only thing we really need to show There are still some without rules but I tell you, they're all fools  
The guardians will find them as we've seen  
We got banks where we freeze them  
They get new brains screwed in then  
And act contrarily to what they have been With new minds made so clean  
Checked up on a screen  
They will be the saints  
Without them we might all fail Guardians of our lives, protect security  
They turn the key and they step in  
Controlling you and me  
Guardians of our lives, take care eternally Guardians of our lives, protect security  
They turn the key and they step in  
Controlling you and me Guardians of our lives, protect security  
They turn the key and they step in  
Controlling you and me  
Guardians of our lives, take care eternally Puppets on a string, puppets on a string  
Puppets on a string, puppets on a string
