Chaos

Chaos UK

Don't want to be your fucking hero
Don't want to be your fucking star
They use your money and exploit your name
Using people is the name of the game
They say wear bondage and a messy suit
You're just another dumb recruit
Don't know what we're gonna do
We just can't get through to you
They take your money; You work so hard
But you'll just get an unemployment card
In the day, you're just a lad
You're a poser, it ain't so bad
I ain't a poser or a fucking star
I don't drive a flash fucking car
Chaos in society, you're to blame
In years to come, it'll be the same
