

# Save Me

## American Hi-fi

I've been so low  
Yeah I've been so strung out  
Can you picture this?  
I'll take something  
It's better than nothing, anything  
That you've got to give  
I can't let go  
I don't want to know  
I've been down so long  
Could you save me?  
I'll fight my way  
Just to hear you say  
If I go up in flames  
Could you save me?  
The more you whisper  
The words keep stinging in my ear  
We're never gonna be the same  
Sunshine fading  
And black sheets raining down on me  
They cover up everything  
I can't let go  
I don't want to know  
I've been down so long  
  
Could you save me?  
I'll fight my way  
Just to hear you say  
If I go up in flames  
Could you save me?  
I've been so selfish  
I get so high  
Don't wanna come down  
I've been so low  
Yeah I've been so strung out  
Can you picture this?  
I can't let go  
I don't want to know  
I've been down so long  
Could you save me?

I'll fight my way  
Just to hear you say  
If I go up in flames  
Could you save me?  
Yeah, could you save me?  
Oh, could you save me?
