

Magic City

[Yngwie Malmsteen](#)

Well it seemed to me
That the place to be
Was far away
From the dark and the cold So I sailed away
Into the sun
Across the blue sea Magic city is my home
Where I wanna be
Forever more Well I had to go away
I just couldn't stay
Where the cold winds blow
And I'm surrounded by ice and snow So I sailed away
Into the sun
Across the blue sea Magic city is my home
Where I wanna be
Forever more
Magic city is my home
Where I wanna be
Forever more
