

# Fool's Paradise

Jesse Harris

It's time I should go  
Onwards, I don't know  
It's my own advice  
But I need my fool's paradise Find me when you can  
Come and take my hand  
It's been cold as ice  
Since I left my fool's paradise And likely when I'm back  
Wondering how to act  
I won't be thinking twice, will I?  
In my fool's paradise But now there's no one here  
You could be anywhere  
The moon is just a slice tonight  
In my fool's paradise  
In my fool's paradise  
In my fool's paradise
