

# I Cried Today

## Geordie

4. I've cried today.

-----

[voice over]

Let me introduce you to our hero

a foolish man

a man who made the mistake of taking everything he had for granted and ended up with nothing

sing a song dummy!

So this is it

she's gone for sure

and now I understand what these sad songs before

she broke my soul hey what is this

I never thought I'd hear these words from my lips

Refrain:

-----

Oh,

I cried today!

I shied away!

I fled away!

From the crowd!

From the crowd!

So she's gone and I'm alone

and I've been trying to work out what I've done wrong

she hit my mind but she leaves no scar

I never thought I'd hear these words from my lips

Refrain:

Oh,

I cried today! Baby, baby!

I shied away! Ah, yeah!

I fled away!

From the crowd!  
From the crowd!

I had to go

because she said so

and now Iâ€™m all alone

Iâ€™m feeling low

nowhere to go

she got me on the run

[voice over]

â€˜Now look at our hero

a sad, lonely man

a man who so low he has to look up at his feet

and tomorrow being a working day really got our hero in a terrible state

now the morale of this story is

donâ€™t take for granted what you got

because one day it might mean a lot

or even more

sing your song dummy!â€™

I cried today (yes I mean it)

I shied away (baby!baby!)

I fled away

from the crowd

(baby baby) from the crowd (2x)
